**Join us for a conversation about what every nonprofit needs to know to be compliant with Washington State Department of Labor & Industries rules. We will be sharing some resources and overview information. Our main focus will be on answering your questions. Register [here](#).**

Here are some common questions to get you thinking:

- *What are the rules related to paying interns to take on projects?*
- *How do part-time employees fit into L&I rules?*
- *Does safety and health law apply to all-volunteer organizations?*
- *Are you telling me that my organization needs an Accident Prevention Program even though we all work from home?*

Nonprofits are required to follow worker-related laws in Washington. Our goal is to get your nonprofit what it needs to know what those laws are and how they relate to your work serving your community.

This event is offered in partnership with the Department of Labor & Industries for employer outreach and education. It shares with Nonprofit L&I Navigator resources to ensure all nonprofits have access to relevant learning tools. **Written materials are available in both Spanish and English.**
