

Nonprofit Network Southwest Washington connects nonprofits to resources. We are focused on creating an infrastructure of support for local nonprofits in a dynamic community. We build community by publicly recognizing and strengthening our community's investment in the nonprofit sector.

Civil Society

We have programs focused on empowering volunteers, nurturing philanthropy and building board leadership. The Nonprofit Network brings together organizations with people of passion, ideas and skill. We are building community through nonprofits, advancing the common good through our individual and collective actions.

Knowledge, Communications, & Great Practices

Professional development and support resources help organizations to meet the challenges presented by growing and changing community needs. We welcome partnerships with organizations, education and business. Programs are in both structured and informal formats.

Public Policy

NNSW provides information on the changes in government regulation that affect how nonprofits operate. We offer workshops and resources for nonprofits on the parameters of legal lobbying and advocacy.

Meetings with Elected Officials and Policy Makers Advocacy Training

The nonprofit sector is an essential component of American society, bringing people together to improve their communities. We are a Washington State nonprofit working with local community organizations to strengthen and build community. We welcome your involvement!
