

King County Nonprofit Employee Engagement Survey

What do you like best about your job? What are some things that can improve? What feedback would you like to give your supervisor about your experience at work?

Make your voice heard! Please take 15-20 minutes to complete the **King County Nonprofit Employee Engagement Survey** to share what factors (including your paycheck) impact how you feel about your job. You'll be asked to rate things such as work culture, how well your supervisor supports you, factors that lead to job satisfaction, diversity and inclusion in the workplace, and more. We want your direct feedback on what we can do to cultivate a supportive nonprofit sector where everyone feels valued, respected, and heard.

501 Commons is conducting this survey in partnership with the King County Veterans, Seniors, and Human Services Levy (VSHSL) to provide nonprofits with data to help them improve retention of talented employees. All full-time or part-time employees who work at an organization based in or serving King County, or who work at a nonprofit elsewhere and live in King County, are eligible to participate.

The survey is anonymous. The last day to complete it is May 25, 2025. We thank you for participating!
